Customer Reviews

I love all of the projects in this book but I gave it 4 stars because it lacks a bit of instructions. I am fairly new to sewing so I need a little more direction than what was offered in this book. I need more

step by step pictures/instructions. I am in the process of trying to make the apple potholders and it has taken me 2 days and I still need to put the binding on. I have been on youtube trying to learn how to make bias binding and also how to sew it on. The projects are all just as cute as can be and I hope I can get good enough to make them all. This book is more for someone who has more knowledge and experience than I do.

I don't buy very many craft books because I usually only want to make one or two things. I couldn't resist this one! Not only are the projects delightful, but the pictures are pure eye candy! I've had this book for a week and finished 2 projects so far with about 8 more planned. Love this book!

First, the book is so lovely to look at. Beautiful pictures and colors inspire me to make every project. Second, there are many projects I want to make from this book. I don't buy many craft books because I would only make one or two projects. Not this book! So many great projects!

Book was very thoughtful and well written. I found it quite easy to understand and the visuals went along way to solidify the instructions. I love this book and will highly recommend.

Love this book! Several projects that I'd like to make. Already working on one!

Nothing really new and to my liking too many toys and things for children, nicely photographed though and there are usual pouches and bags, maybe if I had seen it in the bookstore I don't think I would have bought it, not bad but not outstanding.

Nice little book with great projects! Love it!

I bought the Kindle edition. It was great to have a link that took me right to the patterns so I could print them out. I have already made the bears! Great patterns, super easy to follow. I love Kim's style!
