Carbohydrates and sugars go hand in hand in disrupting your blood sugar levels, and this can cause your blood sugar to spike and then drop dramatically low. Whether it is spiking or falling, that isn't good; you need to keep your blood sugar at a constant, healthy level. In order to maintain a normal blood sugar level, you need to change the way you are eating. The food we consume has a direct impact on the amount of sugar in our systems. It goes without saying that if you eat no sugar, there can be no sugar in your blood. Of course, that isn't good, either - again, a healthy level must be maintained at all times. This means monitoring your food and choosing healthy, balanced recipes to prepare for yourself at home, so that you can be certain of the ingredients that are included in your foods. And that is where this book comes in! With this book, you will be able to learn thirty new and exciting recipes to help spice up your breakfasts, lunches, and dinners. Your low-carb, low-sugar, diabetic friendly meals do not have to be boring and bland! This book is here to provide you with enough recipes to keep your cooking muse feeling inspired for months to come.
