

Microsoft Word 2010 Introduction Quick Reference Guide (Cheat Sheet Of Instructions, Tips & Shortcuts - Laminated Card)

Word 2010 Introduction

Creating a New Document

A blank, new document displays when Word is launched. To find an existing document:

1. Choose FILE > Open Recent.
2. **CTRL+R** (Mac OS)
3. **CTRL+N** (Mac OS) or **CTRL+N** (Windows)
4. **CTRL+O** (Mac OS) or **CTRL+O** (Windows)
5. **CTRL+D** (Mac OS) or **CTRL+D** (Windows)

To quickly create a Word document press **CTRL+N**.

Opening an Existing Document

1. Choose FILE > Open, or press **CTRL+O**.
2. Select the document, and **CTRL+O**.
3. To change the location, **CTRL+Shift+N** (Mac OS) or **CTRL+Shift+N** (Windows) is the toolbar icon on the left, or **CTRL+O** (Windows) is the toolbar icon on the right.

Recently opened documents/places:

- To open recently used documents or places (Mac OS), use **CTRL+O**.
- To open a document again on the ribbon bar, use **CTRL+O**.
- To remove a document or place, **CTRL+O**.

Working with Previous File Versions

Files created in Word 2007 or earlier can be opened in Word 2010. To open a file from a previous version:

1. To open a file from a previous version, choose FILE > Open > Open Recent > Previous Versions.
2. To open a file from a previous version, choose FILE > Open > Open Recent > Previous Versions.
3. To open a file from a previous version, choose FILE > Open > Open Recent > Previous Versions.

Saving the Document

1. Choose FILE > Save, or press **CTRL+S**.
2. If saving the document for the first time:
 - a. Type the FILE NAME.
 - b. Choose a location by clicking the folder name displayed at the top of the dialog box, then clicking the file name in the list.

Setting up Page Layout

1. Choose PAGE LAYOUT.
2. Select the page margins, orientation, paper size, and columns in the PAGE SETUP group. Changes are applied to the entire document (or selected area for columns).
3. To make changes to just one part of the document, select the area to be changed.
4. Choose the APPLY TO option in the PAGE SETUP group.
5. Make the changes on the MARGINS, PAPER, or LAYOUT tab.
6. Choose the APPLY TO option in the PAGE SETUP group.

Inserting/Deleting Text

To insert text:

1. Click where the text is to be inserted, then type.

To delete characters:

1. Place the insertion point in front of, or after, the text to be deleted.
2. Press **CTRL+Backspace** to delete characters to the left, or **CTRL+Delete** to delete characters to the right.
3. To delete a large amount of text:

1. Drag across the text to select, or use one of the keyboard listed under Text Selection Shortcuts.
2. Press **CTRL+Backspace** or **CTRL+Delete**.

To replace text: Select the text, then type the new text.

Spacing between Paragraphs

By default, 36 points of space is applied after every paragraph. To start a new line without starting a new paragraph (such as in lists), press **CTRL+Shift+Enter**.

To turn off the default paragraph spacing:

1. Select the text.
2. Choose HOME, then **CTRL+Shift+P**.

Undoing/Redoing Actions

CTRL+Z (Mac OS), or press **CTRL+Z** (Windows) to undo one step. To undo several steps at once, **CTRL+Shift+Z** (Mac OS) or **CTRL+Shift+Z** (Windows) to redo one step. To redo several steps at once, **CTRL+Shift+Y** (Mac OS) or **CTRL+Shift+Y** (Windows) to redo one step.

Repeating an Action

To repeat the last action, **CTRL+Y** (Mac OS) or **CTRL+Y** (Windows).

Moving or Copying Text: Cut, Copy, Paste

1. Select the text to move or copy.
2. To move, choose HOME, then **CTRL+X** (Mac OS) or **CTRL+X** (Windows).
3. To copy, choose HOME, then **CTRL+C** (Mac OS) or **CTRL+C** (Windows).
4. **CTRL+V** (Mac OS) or **CTRL+V** (Windows) to place the content at the new location.
5. **CTRL+V** (Mac OS) or **CTRL+V** (Windows) to paste the content at the new location.

or to copy text such as keep source formatting, **CTRL+Shift+V** (Mac OS) or **CTRL+Shift+V** (Windows).

Drag and Drop

1. Select the text to move or copy.
2. Place it at the selected area. The mouse pointer changes into an arrow and (Drag) the text to the new location. To copy, press **CTRL** while dragging.

Changing Text Font and Size

1. Select the text to change.
2. Choose HOME, then select from the Font list, e.g. **CTRL+B** (Mac OS) or **CTRL+B** (Windows).
3. Choose from the font size list, **CTRL+Shift+>** or **CTRL+Shift+<** to increase or decrease the font size.

Enhancing Text: Bold, Italic, etc.

1. Select the text to change.
2. **CTRL+B** (Mac OS) or **CTRL+B** (Windows) to bold, **CTRL+I** (Mac OS) or **CTRL+I** (Windows) to italicize, **CTRL+U** (Mac OS) or **CTRL+U** (Windows) to underline.

To remove enhancements, select the text, and **CTRL+B** (Mac OS) or **CTRL+B** (Windows) to remove bold, **CTRL+I** (Mac OS) or **CTRL+I** (Windows) to remove italic, **CTRL+U** (Mac OS) or **CTRL+U** (Windows) to remove underline.

Copying/Formatting

1. Select the text that has formatting you wish to copy. To copy a paragraph's formatting, make sure you select the entire paragraph.
2. Choose **CTRL+C** (Mac OS) or **CTRL+C** (Windows) to copy, or **CTRL+V** (Mac OS) or **CTRL+V** (Windows) to paste.
3. Select the text to be formatted.
4. If applying multiple times, press **CTRL+V** or **CTRL+V** (Mac OS) or **CTRL+V** (Windows) to paste again.

Changing Paragraph Alignment

1. Select the paragraph to change.
2. Choose HOME, then select from the Paragraph group, e.g. **CTRL+L** (Mac OS) or **CTRL+L** (Windows) for left, **CTRL+R** (Mac OS) or **CTRL+R** (Windows) for right, **CTRL+J** (Mac OS) or **CTRL+J** (Windows) for justify, **CTRL+Shift+J** (Mac OS) or **CTRL+Shift+J** (Windows) for justified (last line short).

Formatting Text with the Mini Toolbar

Use the Mini Toolbar for quick access to common formatting options.

1. Select the text to change with your mouse.
2. Right-click to move the mouse up and to the right.

Using the Highlighter

Just like a highlighter, you can highlight by choosing a color.

1. Select the text.
2. Choose HOME, then **CTRL+H** (Mac OS) or **CTRL+H** (Windows) to highlight.

When finished, press **CTRL+H** (Mac OS) or **CTRL+H** (Windows) to remove highlighting from text.

To select the text, **CTRL+H** (Mac OS) or **CTRL+H** (Windows) to select the text, **CTRL+H** (Mac OS) or **CTRL+H** (Windows) to select the text.

Customer Reviews

This card is two sided, laminated and is titled Word 2010 Introduction. And that it is...if you've used Word 2010 or 2007 for over twenty minutes, you no longer need this card. I decided to look up something simple on it--how to change from single space to double space. It's not on there. So, I

thought, let me see a subject that actually might help me: how do you use Master Documents, and headers and styles. No way, Jose. Not even a hint. So, take the cost of this product and put it towards a simple book on MS Word and you'll be ahead, from what I can see. Maybe I'll give this card to some first grader that is using Word for the very first time in his little life.

This item came in handy to have available on my desk for quick reference. I recently purchased a new computer and it contained Windows 7 and a lot of the routine processes were somewhat different. Even if you have basic knowledge of Microsoft Office, this is a handy reference laminated sheet to have available.

Not worth the price unless you are a complete newbie. Laminated sheet and does cover some hot key shortcuts but not anywhere near all of them.

Great for beginners who have had no training and also helpful because my firm is changing from 2003, so it has been great.

I purchased this "cheat sheet" as a middle-aged adult returning to college after having graduated from college almost 20 yrs ago. Very useful guide/summary of the key functions of Word 2010 in a well-organized fashion and encased neatly in a sturdy laminated protector at an unbelievably low price. Saves me a great deal of time and frustration. I use this reference sheet often and would highly recommend this to consumers with any level of computer literacy. So now go on and cheat. With a clear conscience.

While this sheet is more basic than I had hoped, it did contain some helpful hints for me and the sheet is well made--should last the life of the software. Topics are easy to find on the sheet and the hints are easy to follow.

This has been very helpful when working with Microsoft's Word 2010. Office 2010 is so different than the earlier versions and this little cheat sheet has been incredibly helpful with things that used to be so obvious. Nice information and the lamination means it will last for quite some time to come. It beats dragging out the book and looking up the process you are trying to accomplish only to be run around in circles until you finally find the answer. Highly recommend to anyone having trouble with Microsoft's Word 2010.

We had to upgrade from 2002 because of the death of the XP that we ran MS programs on. We thought we would need a guide to take us through the changes over the past 10 years. Well, there haven't been any significant changes to Excel or Word, and anyone who has ever used these programs in the past won't need this Reference Guide. In fact, this reminds me of guides that we used to get in the 90s when we didn't know "justification" from "font size." I wouldn't be surprised if my 7 year old grandkid doesn't know most of the stuff on this card. No great loss, but I would recommend that you go out and buy a double scoop ice cream cone instead. The memory will linger longer than any knowledge you gain from this guide. EW
