Chemtrails, HAARP, And The Full Spectrum Dominance Of Planet Earth

Synopsis

We are entering a Space Age, but not the kind President Kennedy originally envisioned. This Space Age is replacing resource wars and redefines planet earth as a "battlespace" in accordance with the military doctrine of "Full-Spectrum Dominance." This book examines how chemtrails and ionospheric heaters like the High-frequency Active Auroral Research Project (HAARP) in Alaska service a full-spectrum dominance. This "Revolution in Military Affairs" needs an atmospheric medium to assure wireless access to the bodies and brains of anyone on Earth; from heat-seeking missiles to a form of mind control. How sinister are these technologies? Are we being prepared for a "global village" lockdown? The recent release of NSA records have reminded Americans that "eyes in the sky" are tracking us as supercomputers record the phone calls, e-mails, internet posts, and even the brain frequencies of millions. Elana M. Freeland's startling book sifts through the confusion surrounding chemtrails-versus-contrails and how extreme weather is being "geo-engineered" to enrich disaster capitalists and intimidate nations. A deconstruction of Bernard J. Eastlund's HAARP patent points to other covert agendas, such as a global Smart Grid infrastructure that enables access to every body and brain on Earth, a "Transhumanist" future that erases lines between human and machine, and Nanobiological hybrids armed with microprocessors that infest and harm human bodies.

I sleepily opened this book to just look in it--and then was on page 20 and thoroughly fascinated.

Author Freeland makes it easy to understand the frightening forces being used in these technologies and the color photos of the Morgellon's disease passed by these chemtrails make them real. Her footnotes document every statement's source, in many cases from research by our government itself. I also like that Freeland gives answers on how people can protect themselves from these dangers in our homes and foods. So many experts who reveal dangers don't include a practical remediation approach or the positive elements that Freeland provides her readers.

Although I'm just at the beginning of the book and being a person who has studied the subject of Geoengineering aka Chemtrails, the author is spot on with her research. I listened to a radio interview with her and the information she presented in the interview and in the book is down right earth shattering.....We need to wake up globally to this invasive activity that is poisoning us physically and electromagnetically. Nobody has the right to play God with the earth.

The genesis of this undertaking and it's effects should be widely reported, and this volume required reading for all. This compendium of decades of painstaking research will be a revelation for many, too little too late for most, and entirely unbelievable for the gullible masses. Millions are spent yearly to provide misinfo and disinfo re: this hellish, old project of genocide, mass extinction and control. That would include the absurd reviews discounting this crucial, essential info. IF you are still capable of thought, you'll snap this up before they find a way to ban it.

Every American who can still think in spite of our present, massive chemical onslaught, must read this book. It is a non-fiction work that takes a vast topic and makes it understandable to the layperson. You will not put it down once you start. Also, my heartfelt thanks for the dietary suggestions to fight disastrous effects of the Morgellon's micro-electrical mechanical sensors (MEMS) that we all now suffer from. I hope she will write a new book on the interaction between these iron-ingesting man-made nano-particles and the electromagnetic frequencies of the HAARP network, Nexrad, GWEN, and our garden variety cell towers.

Every American who truly seeks answers as to why droughts, floods, hurricanes, snowstorms and other weather anomalies are so severe today, will find those answers in this book plus so much more. It is detailed, researched and footnoted extensively. Want to know why dementia and alzheimers diseases have dramatically increased? Read the Chapter on GMO's (genetically modified organisms) and see why we should never eat corn today! It is like an encyclopedia in one

book that is an eye-opener as to who, what and why the world is being controlled by forces beyond our shores as well as within them.

This is the go-to book about Chemtrails and HAARP and the effects on earth and people. Ms. Freeland not only does an excellent job of pulling together the science, but provides solid descriptions of how HAARP and Chemtrails work for purposes of control. Well done!

Very informative, very scary, very convincing, very important. Well written. Well documented.

Everyone !!!!!!!!!!!!!Amazingly well researched, will erase any doubts about what is going on in our skies: Time for a corporate death penalty.[...]
