Customer Reviews

The Atkins diet is a popular one with many testimonials of huge weight loss, yet I always struggled to lose the weight myself, while on this so-called 'amazing' diet. With my doubts I still tried to give this book a chance and take on board what it had to offer, to my surprise managed to lose some weight! Thanks to the simple yet effective tips in this book, I have now lost a jean size and this is only the beginning! I highly recommend even if you're not one of the most keen and enthusiastic like me!

I always wanted to try this diet but kept hearing so many different stories. I'm glad this book was exactly what I expected. To learn how to apply this diet the right way without it being or counterproductive for my body. Already trying to lose weight is hard enough, not having the right information just makes you want to binge diet pills instead of try a healthy diet for once. Greta book

The Atkins diet is familiar to me. Some time ago I tried it for myself. We can say that the results were excellent. Now I decided to take this book to learn more about it. Indeed, the material is a little different from what I know. The book is written correctly and easy to read. I recommend this diet to all who suffer from obesity. Believe in yourself.
