# Michigan Month-by-Month Gardening: What To Do Each Month To Have A Beautiful Garden All Year

## Synopsis

The when-to and how-to schedule for growing, caring for, and maintaining your Great Lakes State garden! Never garden alone! The Month-by-Month Gardening series is the perfect companion to take the guesswork out of gardening. With this book, you'll know what to do each month to have gardening success all year, from January to December. It's full of the when-to and how-tos of gardening along with richly illustrated step-by-step instructions, so you can garden with confidence. Reap the benefits of the gardening successes of author Melinda Myers, who has over thirty years of horticulture experience. With a fresh look and updated information, Michigan Month-by-Month Gardening includes all the when-to and how-to information that has made these books so popular over the years, presented in a new, easier-to-use format with more full-color photography and the most current information available. Complete with specific advice on growing flowers (both annuals and perennials), bulbs, grasses, roses, groundcovers, shrubs, trees, and vines, this book is one no garden lover will want to miss! In the winter, certain tasks are needed to plan for and improve the next growing season. And once things really start growing in the spring and summer, you'll find advice on the best way to get the most beautiful flowers, the lushest lawns, and the sturdiest trees. From planting to watering and fertilizing, and from maintenance to problem solving, Michigan Month-by-Month Gardening shows all levels of gardeners the best practices to grow satisfying and rewarding results.

## Customer Reviews

If you live in the state of Michigan and enjoy gardening, you will truly enjoy reading and using this detailed book by Melinda Myers. This book is written month by month. Each month is divided into sections for the gardener with specific information about your Michigan landscape. The author included color photographs, step by step how to's, information about composting and pruning bushes and trees, diagrams for plant hardiness, charts for planting vegetables, and how to order mulch and soil. Since this is April, let me give you some examples of the information the author included for this month in Michigan. We need to check the bulbs that are growing and make note of their location and if any will need to be separated later or if we need to plant more. Preparing our soil for planting is necessary for the healthy plants we will put into the ground soon. You could begin to plant lettuce and other cool temperature plants. Raking the lawn to remove dead grass and remove leaves or dead plants is a job for April. I think the Michigan gardener will find Melinda's book a great resource and check list each month for the year. \*I received this for review - all opinions are my own\*
