# Month-By-Month Gardening In Minnesota: What To Do Each Month To Have A Beautiful Garden All Year

## Synopsis

Never garden alone! The Month-By-Month series is the perfect companion to take the guesswork out of gardening. With this book, you'll know what to do each month to have gardening success all year. Written by authors in your state, the information is tailored to the issues that affect your garden the most. When is the best time to plant trees and shrubs? Should I fertilize my lawn now? Is it time to prune my roses? What should I be doing in my garden this month? You'll find the answers to these questions and much more inside. This easy-to-use book highlights each of the ten major plant categories using a monthly format. It guides you through each month of the year, telling you exactly what your garden needs. It is like having an expert in the garden with you all year long. Valuable hints are located throughout the book, and beautiful photographs will inspire you. Written just for gardeners where you live, you can be confident that the information is right for you-and your garden will show it.

## Customer Reviews

Reading Melinda Myer's Month-by-Month Gardening in Minnesota is a complete joy. She spells out a game plan for gardening year round. If you're from Minnesota or nearby, this volume is invaluable. Even during the coldest months, Melinda recommends things to do to get ready for the full blown gardening seasons spring, summer, and fall. I love the way she talks to me in your writing; not talking down to me. What a gem!! I have attended many of Melinda's gardening seminars and we have filmed a couple spots for her upcoming PBS gardening show. I'll have the air times and dates listed on my website very soon at [...][Thanks for all your fun writing, research, and gardening](#)

sense. John Michael Lerma, author of the cookbook *Garden County--Where Everyone is Welcome to sit at the Table*. John Michael Lerma's *Garden County*

*Month-by-Month Gardening in Minnesota: Revised Edition: What to Do Each Month to Have a Beautiful Garden All Year (Month-By-Month Gardening in Minnesota)* I'm pleased with this book. The way it's designed is completely user-friendly year 'round. The quality of the pages, print, photos and information exceeds my expectations. It seems to have something for every MN gardener!

I am a novice gardener, and have found this book to be very helpful. It's divided into chapters including perennials, annuals, trees, shrubs, roses, and more. Then within those chapters is a month by month guide on how and when to plant them, fertilize them, care for them, etc. I like that there are also things written for the winter months so that you can always somehow be connected to your garden, even when it's cold and dark outside! A great guide and easy to understand. I recommend it!

It is the BEST garden book you can buy to maximize the short growing season MN offers. It is the most concise book I have purchased for gardening in MN. HIGHLY recommend.

I only started gardening two years ago and so many times I find myself wondering about when the right time to do stuff is. This book answers all of those questions for Minnesota gardeners. When the right time is to prune, plant or fertilize different plants. This book also does a great job of listing what plants work well in the Minnesotan climate. This has been one of my best gardening book purchases.

I am making a landscape plan for my son in MN and thought this would help with plant selection. It did not. There were some plants listed for the region but it was almost too basic. I might be good for someone just starting into gardening.
