Jamie Oliver's Food Escapes: Over 100 Recipes From The Great Food Regions Of The World

Synopsis

This new book of mine is all about fun, escapist recipes. It's an adventurous cookbook that embraces the big hitters from the incredible countries I've visited recently, as well as completely new things I've made up by taking cues from the influences around me. I've taken some of the most famous and exciting dishes from these beautiful places and tweaked them so you can recreate the paellas of Spain, the tagines of Morocco and the risottos of Italy easily, and authentically, in your own kitchen. Every now and then, being brave, escaping the daily routine and filling up on other cultures is a great thing to do. Just get out there and discover the fantastic flavors, people, and places that exist just a flight away. So, if you've been talking about going somewhere in particular but haven't gotten around to booking your ticket, I urge you to go for it. You'll come back feeling optimistic about life, with a head full of beautiful memories--not to mention ideas for incredible dishes. In the meantime, let this book introduce you to some of the fantastic new recipes and flavors I've discovered, and maybe even reintroduce you to recipes you've loved and enjoyed on your own holidays, but just never knew how to make.

LOVE, LOVE, LOVE. I enjoy traveling, and enjoy tasting the local fare. Jamie has brought us the best of the world, and taken his own spin on the recipes too. He's altered when an ingredient would be difficult for us to find here in the USA. He also keeps it healthy, and adds beautiful photos of his travels, and very interesting stories. This is no regular cookbook. I love it so much, I've given it as a gift also.

Another great book by Jamie Oliver! The book has many interesting stories and recipes from countries around the world. Some of the ingredients are little difficult to come by but the trouble is worth it. I would absolutely recommend this book to people who like to try something new.

Gotta love Jamie! I have enjoyed Jamie's recipes on tv, and I decided to get one of his books, I opted to buy this one as my first because I like to see his 'twists' on recipes and how he makes it look so easy. This book is thick, has really nice pictures (of Jamie's trip and recipes), and the recipes, in my opinion are not the usual recipes you see in cookbooks, like I said, I like his twist and how he tells a little story about them. This kind of book looks awesome not only on the kitchen, but would be a great present to anyone who enjoys cooking and experimenting with world's cuisine.

A very good all round cook book. I bought this as a present and it was very well received. It has a great variety of interesting recipes in it.

I was so excited buying this book, I thought I'd found a Jamie book that I didn't already have! Then when I opened it I was deeply saddened to find that it is in fact, Jamie's! Ahh well, a book for one of the kids when they move out! Note: I gave it 5 stars because Jamie's awesome, they should note somewhere however that it is the same as Jamie's!

Jamie is a wonderful cook who brings freshness and life into the kitchen. His recipes are delicious and he proves that sometimes it's the simplest preparation that can bring out the best in any ingredient or dish.

Excellent book. Jamie makes you feel like you get to travel with him. Some recipes I will never use because they are kinda involved and definitely regional (which is the whole point of the book btw). But I love the pictures and stories. Definitely worth adding to your collection!

This was a Christmas gift for my chef of a brother-in-law, and he is loving it! Jamie Oliver never disappoints.
