I crochet amigurumi critters constantly and am always on the outlook for something different. These fit the bill. With so many to choose from it was hard to know where to start....but in less than a week I have already made four covers. I need more bathrooms! The book is well laid out and the patterns clearly written. A little adjusting on size was needed, but that is to be expected as we all use different yarns, hooks etc. Mine has all turned out well. The monkey is way too adorable. This books is a great value for the money.

I absolutely adore this book. I have been crocheting for a few years and still find simple stitches fun.

If you are new to crochet this is the perfect book for you! Even if you are experienced, Lisa Wright gives a new use and look to simple stitches. Definitely my new favorite crochet book!

This book is a kick! The instructions are clear and the pictures helpful and fun. I'm fairly new to crochet but the directions are easy to understand. So many fun TP covers to make...blows the doors off the southern belles I remember from my youth that graced many a bathroom.

Great, easy patterns! I made the birthday cake 'holder' for one of my granddaughters... inside the roll, I put money! Everyone loved it!!!! I don't think the patterns only have to be a toilet paper cover lol... it's a great gift card or present holder that can be stuffed and used for cute gifts...like the cupcake or octopus, for example...this is a very useful book and, BTW, can also hide a roll of toilet paper :)

book was in excellent condition and received timely good patterns for hiding the paper and covers for special occasions - will make great gifts

Sometimes I just like to change things up to hide items like the toilet in the bathroom. This has so many great things to make!

Very easy to understand with great pictures! This gives you all kinds of ideas to build on for future projects!!

I love making these covers and they really turn out cute. Great gifts. A crocheter would love to do do these.
