## **Customer Reviews**

It seems that Feng Shui must be all the rage now. I bought a book to get a general overall view of what Feng Shui was and this book taught me exactly that. However, I was disappointed the book did not have diagrams and that there was no instruction as to how to calculate the Kua Number or how to find out the birth element. I had to look up a calculator online. However, overall, I was very pleased with its clear explanations. Four stars.

Wow I found and will find this book to be a great reference for now and future information! Very to the point and interesting. I read this in about an hour. Now I can really start to Feng Shui my whole house properly! Thank you!

There isn't anything in this "book" worth paying for. You can find better information on blogs or youtube. Don't waste your money. I wish I had read the reviews first as all of the 5 star ratings look like they were written by the same person with poor grammar. Again, don't buy keep looking for something else.

In life everyone have right to lend his life in beautiful manner and to enjoy the daily work. Feng Shui can be very helpful in this matter so as this book. As it describes great deal of lessons on Feng Shui so this can be very helpful.
