(That's the reason I decided to write these plans.) Unlike most plans out there, you will be able to understand these! I have looked at others and I guarantee they are not as good as my plans! The plan features: • 30 pages containing very detailed, step by step instructions. • Each step includes diagrams and or photographs to assist in the construction process. • 18 Patterns; One for each piece that makes construction so easy a •caveman could do it! •! • Built entirely from Standard 2X4's •, 2X6's • and 1/2" • Thick Plywood or any thickness you prefer. • Tips, Tricks and Notes that allow you to cut without error the first time. • Can be built with just a skill saw, and drill. • This project plan is designed for the beginning woodworker, but should not bore even the most experienced carpenter.

Customer Reviews

From reading the title of this plan, I was expecting a high quality work plan with really good diagrams. Instead I got a plan with diagrams that look like they were made in Microsoft Paint. This plan is worth at most \$.99.

This is a poorly written book and I would not recommend it for beginners. A book for beginners would have many more labeled diagrams and descriptions. Poor flow, poor instructions, certainly not clear enough for a beginning builder.
